

May 2, 1985

Dear Rupert:

Enclosed please find \$25.00 for a membership and the newsletter. I was surprised my subscription ran out so quickly, as my records show I renewed my subscription in late June 1984. I guess I've missed the "super dooper" February issue with coverage of Harry Benjamin's birthday, and hope you can send me the issues I've missed.

It is just amazing to me all the @#*&%! happening. I've recently purchased typesetting and word processing equipment and have been really preoccupied getting the equipment going. I am making some progress on my biography and have been putting a lot of hours entering my material in my computer. I also just joined a newly-forming San Francisco Bay Area Gay & Lesbian Historical Society and will help them put together a newsletter. Meanwhile my younger sister here in S.F. is getting married in a few weeks, and just this week we all discovered my older sister back East has been stricken by multiple sclerosis. So my thoughts have really been in a million different places. I think I've also found myself a swell part-time job.

Went to a lesbian-oriented marital aids store here in San Francisco and the clerk gave me the following address, saying this guy makes (or is trying to make) a silicone dildo/prosthesis for guys who don't have cocks. I know this is one of your interests, so here's the guy: Gosnell Duncan, Scorpio Products, [redacted] Kings Hwy, [redacted], Brooklyn NY 11203, phone (212) 629-9475.

Well, Rupert, keep up the good work on Metamorphosis.

Regards,

W-F 465
