

Dear Lou

10/21/86

ALYN W HESS
N 25TH STREET
MILWAUKEE WISCONSIN 53206

Enclosed are the copies for you of the solo nut model.

I've been trying to find more info on Dr Benjamin but have yet to get it located. In a couple weeks he should show up in the periodical indexes and I can then get you copies of his obit.

I've read those the ^{5th} papers I sent back here. They took a week and a half to get here. The red & white has yet to arrive. If it does not come Monday I'm filing a search with the P.O. - How can they lose something as dramatic as a red & white signed trade? But I still have not found that small notice I had read about your book. Left you in shirt sleeves and arrived here to 40° F chill! God what a nasty shock. We have been cloudy 5 or 6 days a week. It may clear up oddly at night so we could see and enjoy the full moon. But days are hazy at best or Seattle drizzling. Very Depressing.

I must get my shoes on now and go hard out. Tony Earl for governor. So long for now. I'll send

The other info when I get it.

I trust you received the check to cover postage
or UPS for the slide projector.

I also trust you have received a package
from Milwaukee Cheese. Co. & thank you for
your cordial hospitality.

Love. Olyn
