Dear Dr. Coleman:

Thanks for calling on Friday. I didn't get this in the mail that day, as promised, but here it is.

I've marked up the paper with red corrections/requests. Hope you can oblige.

Also thought you'd like a copy of this letter, given to me by Milwaukee's gay organization in 1975 when I left to move to S.F.

It is my wish, Dr. Coleman, that you receive "credit" for first publishing on the female-to-gay-male...so I'd like to see this paper published soon. Just to let you know: With an aim to educate the gender profession, this past week I made a videotaped interview with Ira Pauly, which he said he hopes to show at the next Benjamin Symposium in Cleveland, 1989.

Eagerly awaiting the "final" copy,

Yours in liberation,
