Mortel, 19-11-1989

Dear Lou,

Last week I was very suprised to found a lettre from England. The Franciscan' group newsletter will founds it's way to a great number of countries. I have also received a letter from a Canadian boy. So you will see your newsletter does a good work.

We have advertised your group in our latest information map. I will send one of it to you. I also have written an article about your magazine in our bi-monthly periodic.

One of the questions from England dealt with our legal situation. It is completely legal here to change sex-role. After having your operations, it is possible to change your birth-certificate. For the office you are completely accepted as a man. It is possible to marry with a girlfriend (wich I did in late 1980 and what has made me very happy).

Has anybody of your group had a properbility to meet the symposium in the USA? None of ours has had this oppertunity. From Prof. Louis Gooren I have had the handouts from this events. It looks like it was also a very interesting event.

Lou, will you give me a number of your bank, please? I would like it very much to receive FTM regulary. Because it is difficult to send money to your country, it would makes it a lot easier to pay for it, when I have a name and a number of your bank.

I want to wish you good luck, and till the next time, with kindly regards,

Jean van Aarle

(By the way, Jean is the French version of John)
