Dear Ariodne:

A note of thanks before I leave this spring quarter for the numerous times you have shared yourself and paraculture with my students in the human sexuality class.

They have been overwhelmingly enthusiastic to your presentations. Your ability to explain the various components of the lifestyle with clarity and depth has helped them grow and understand. They have consistently voted you the most interesting speaker of the course.

Your reputation as a spokesperson for the paraculture is ever expanding. Thanks again for being so helpful to me.

Sincerely,

Meg Zaremba
Assistant Professor
