

MILWAUKEE, WISCONSIN

# McKinley Marina

11-17-87

I had cold sores in nose  
and then they migrated out  
into mustach & beard. I  
have had any before. One more  
little straw in the wind. Also had  
a little growth taken off groin  
which was molluscum contagiosum  
virus caused. Again Odd. I  
had a 1 day diarrhea and  
odd roughness on tongue. All  
Preliminary signs of things  
about to go awry. The rash on  
Saturday was the 1st. Hope  
you are doing well. Eldon has moved
